

### **Pacific Endodontics**

Dr. Paul Ortner IV purchased a new multi-tenant office building to locate his growing endodontic practice. He wanted his new office constructed with the same skill and attention to detail he demanded of himself when treating patients. His hands-on approach required a contractor who shared his commitment to quality at every level of the project.

***"We used Norwest for the construction of our new offices – my dental practice and my wife's veterinary clinic. They were just phenomenal. We were impressed with their timeliness, professionalism, neatness, and quality of work. I can only think of positive things to say about the Norwest team. I would highly recommend them to anyone looking for a contractor."***
