

Dr. Mario Pedroza

To keep up with his rapidly growing dental practice, Dr. Pedroza planned to expand into the adjoining office condominium, but he needed to maintain the lobby he shared with a neighboring practice. Norwest had to combine the new and existing spaces and remodel the entire office and lobby all while Dr. Pedroza continued to operate his practice.

“We bought the condominium suite next to ours and needed to combine the spaces. We also needed to blend into the existing décor of a third suite since we shared a waiting area. Handling the job in two phases, Norwest totally gutted and built out one unit, then the other, before creating an opening between them. It was obvious Norwest’s staff spent a lot of time figuring out how to unify our suites and blend into the third—they were great and so were the results.”

Dr. Mario Pedroza, DDS
Hillsboro, Oregon
